augment appropriate species of fish.

breed, relocate and stock to re-establish or

protect, enhance and regenerate a viable, multi-species, year-round fishery.

promote and participate in environmental

clean-up, pollution control and rehabilitation.

promote environmentally sound sport fishing practices.

form partnerships with community businesses, government agencies, special interest groups, landowners, and other

stakeholders in the Thames River watershed.

increase public awareness of the unique diversity of the Thames River Watershed,

its challenges, its recreational opportunities and its vital importance to

Stream Habitat Work Party

TRAA PAST EVENTS

Full Banner Ad - 468x60

Participate, Help Out, Have Fun Events & activities are what the TRAA's all about

This year we be mixed it up a bit by having the Annual TRAA Paddle & Fish on Sharon Creek

Reservoir.

Salmonid Monitoring Program

This year we were pleased to welcome visitors from Chipewas of the Thames First Nation, to tour the trout hatchery and assist us with the release of more than 40,000 rainbow trout.

The latest versions are electronic, emailed to members and other TRAA friends. They feature nice formatting, pictures and yes, colour! The greatest challenge over the years has been getting editions published on time (or at all!). Such is life within a volunteer organization like the TRAA; you have to focus your energies on where they are most effective and a newsletter

falls further down that priority list.

The TRAA Newsletters have evolved over the years.

The first newsletters were banged out manually on a typewriter and then copied about 100 times for distribution. These initial efforts were simple (no pictures or colour!) but they did the job.
